

EC Plate Cleaner

UV Plate Cleaner

Part of CLC SYSTEM

EC Plate Cleaner is a fast acting, heavy duty UV ink plate cleaner. EC Plate Cleaner provides the ideal ingredients necessary for quick cleaning, scratch removal and short term plate storage.

- EC = Energy Curable
- Quick UV ink cutting
- Desensitizer / Scratch Remover
- Helps prevent blinding
- Attracts ink to image area

Directions of Use:

Apply EC Plate Cleaner to a sponge or non-abrasive wipe to remove non-cured UV ink, scratches or debris from litho printing plates.

For Plate Blinding:

If image area is blind or printing lite, wipe directly over the area to remove all ink and then wipe again. Wash off after. If this does not help then wipe just cleaned area with with Allied Control Ca or Relief XUV.

Ask your distributor or Allied about other dedicated CLC System Products:

A coordinated pressroom chemistry program designed to control calcium and surfactant contamination across the fountain loop, plates, blankets, rollers, wash system, and fountain solution.

***Important Note: Shake Well Before Use!**
