

# XTRA FLEX SCRUB

## Heavy Duty Deep Cleaning Gel

Xtra Flex Scrub is a deep penetration cleaner that lifts and removes inks (Water Base, UV, and Solvent), coatings and many tough stains. It contains anti re-deposition agents to ensure nothing re-adheres during cleaning.

When deep cleaning is required, reach for Xtra Flex Scrub.

Xtra Flex Scrub has high viscosity providing for a controlled application where the product clings to the surface and sinks into cells, allowing the powerful cleaners to work better, lifting and removing all ingrained pigments, resins and stains.

- Powerful and extreme deep cleaning properties
- Outstanding results when used to clean gravure and chrome cylinders
- Removes inks and coatings
- Viscosity controlled application
- Use it on press

**Direction For Use:** \*Note: We recommend using a brush.

Apply sufficient Xtra Flex Scrub onto surface. We recommend using a brush so Xtra Flex Scrub gets pushed into the cells where it can clean.

When cleaning is done, to ensure all residue gets removed, rinse off with a water based wash similar to our Xtra Flex Wash.

### Specifications:

VOC content lb. / gallon	2.11
VOC content grams / liter	252/ltr
Flashpoint	None
Color	Off-White
CA. Compliant	No

### Available In:

Product Code	Unit	Case Qty.
