

Plate Care

Hydro Image

Plate Cleaner and Preserver

Part of CLC SYSTEM

Hydro Image Plate Cleaner acts as a Scratch Remover and Plate Preserver. It contains a proprietary blend of acids which completely desensitize the non-image area of the plate while helping to remove calcium deposits.

- Dedicated materials to alleviate blinding
- Non-image area stay desensitized
- Cleans and removes scratches
- Cuts and removes ink quickly

Directions of Use:

Pour a liberal amount of Hydro Image Plate Cleaner onto a clean shop towel. Wipe over the entire plate, paying particular attention to the sensitive areas. Wash off with water and run.

For Plate Blinding:

If image area is blind or printing lite, wipe directly over the area to remove all ink and then wipe again. Wash off after. If this does not help then wipe just cleaned area with with Allied Control Ca or Relief XUV.

Ask your distributor or Allied about other dedicated CLC System Products:

A coordinated pressroom chemistry program designed to control calcium and surfactant contamination across the fountain loop, plates, blankets, rollers, wash system, and fountain solution.

***Important Note: Shake Well Before Use!**
