

Crossflex

Powerful Cleaner for Anilox Rollers and Plates.

Crossflex is a deep-penetrating, non-caustic cleaner with a pH close to 7, designed to tackle even the most stubborn water and solvent-based inks—including UV and opaque inks. Its powerful formula effectively lifts and eliminates ingrained pigments, resins, and stains from anilox rollers and plates without allowing them to re-adhere during the cleaning process. Simplify your maintenance routine and experience the power of Crossflex—the ultimate solution for superior and safe ink removal.

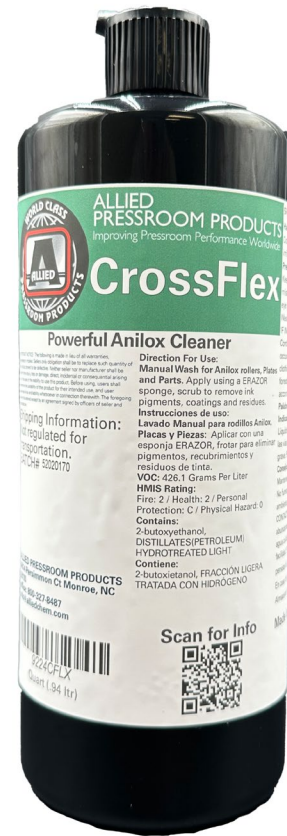

- Eliminates need to multiple cleaners
- Use for Water, Solvent, and UV inks
- Use by hand

Directions of Use:

Roller, Plates, and Parts Wash by Hand:

Apply over entire roller and rub in. Use on a just washed or clean anilox. Apply a small amount onto razor sponge or towel into stained reas, rubbing well. Continue applying to entire anilox. Rise off with water.

Ultra-sonic Tank: Add anywhere from 1 to 12 parts water to ultra-sonic tank.
