

AR ULTRA CLEAN

Heavy Duty Ceramic Anilox Cleaning Lotion

A Non Caustic deep penetrating cleaner containing detergents, solvents, emulsifiers, with anti re-deposition agents. When deeper cleaning or stain removal is required reach for AR Ultra Clean.

Outstanding results when used to clean gravure and chrome cylinders.

Lotion allows powerful cleaners to work better, lifting and removing all ingrained pigments, resins, stains and not allowing them to re-adhere during the process.

- Powerful and extreme deep cleaning properties
- Lotion gets into cells faster
- Ink and Coating Cleaner (Standard, UV, EB)
- pH 7-8 less aggressive toward both the press and the user
- Removes deep stains

Direction For Use: *We recommend using a brush.

Apply sufficient AR Ultra Clean onto surface. We recommend using a brush so it gets pushed into the cells where it can clean.

When cleaning is done, to ensure all residue gets removed, rinse off with water or a water based wash like to our Xtra Flex Washes.

Specifications:

VOC content lb. / gallon	4.6
VOC content grams / liter	553/ltr
Flashpoint	120°F
Color	Green
CA. Compliant	No
